

Factsheet on apprenticeships

Good to know

Basically, any completed apprenticeship can be used to complete further training to become a licensed aircraft technician, but there are apprenticeships that are predicated on theoretical knowledge and learned skills.

A list of these apprenticeships can be found on the website of the Federal Office of Civil Aviation (FOCA). [Link](#)

These are for example:

- Agricultural machinery technician
- Automation technician
- Automobile mechanic
- Automotive mechatronics technician
- Construction machinery technician
- Design engineer
- Electrician
- Electronics technician
- Motorcycle mechanic
- Multimedia electronics engineer
- Plant and Apparatus engineer
- Polymechnic
- Power tool technician
- Production technician

You can also find general information on apprenticeships at the following organisations:

- State Secretariat for Education, Research and Innovation SERI
- Berufsberatung
- Swissmem
