Last General Assembly of SAMA

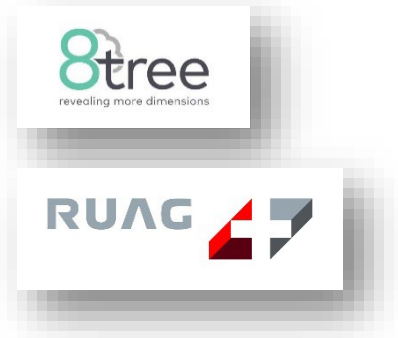

Dear member of SAMA

We would like to thank everyone who attended this year's General Assembly of SAMA on 10 June 2022 in Emmen.

It was a great pleasure for us to be able to hold the event under usual physical conditions and we appreciated the personal exchange, the important questions from the participants and the inspiring discussions.

Last but not least, the formal part of the General Assembly was rounded off with an exciting guest speech by our member company **8tree**, represented by **Erik Klaas**.

We would like to express our special thanks to our host and sponsor, **RUAG AG in Emmen**, represented by **Armin Knobel**. The afternoon's insights into the RUAG hangars were impressive and unique.

We would also like to extend a special thank you to **Gianmario Giacomelli**, who represented the **Federal Office of Civil Aviation FOCA** as Head of the Aviation Safety Division and Deputy Director.

All documents concerning the General Assembly 2022 as well as the presentation of 8tree are now online at svfb.ch and available in the general member's section.

Upcoming Events

At this point we would like to announce some upcoming events. We are currently planning **two events**, both which will take place this year and look very exciting.

You will receive more information in the next few weeks by another News Flash.

We are already looking forward to many participants and a personal reunion.

With kind regards

Balz Albertin

Director of SAMA
